THE NSBE-SHPE DECODER 🧑💻 🧑💻

Your bi-weekly source for knowledge +
networking + job postings are here and
hot off the presses!

Welcome to our redesigned newsletter! We
would like to know what YOU think of our
new newsletter. It is for YOU after all 😊
Please email ns.lehman@lc.cuny.edu with any
comments/suggestions. Thanks! - Your
friends at NSBE-SHPE

ANNOUNCEMENTS

GDG DevFest 2017! 🙌 🧑💻 🧑💻

GDG DevFest is back again. We had an awesome DevFest
last year and we'd like to build on that success. Come join
the fun and learn about mobile, web, cloud and IoT
technologies.

We will have talks on Machine Learning, Actions on
Google, Voice User Interface (VUI), Tensorflow, [api.ai](#),

EVENTS

MONDAY - TUESDAY

OCTOBER 2nd - 3rd

2:00 PM - 4:00 PM

Hacking With Amazon Alexa! Sponsored by MLH

During this workshop, you'll
learn the basics of how to build
skills for Amazon Alexa to run
on Alexa devices like the
Amazon Tap or Echo. We will
cover setting up Alexa Skills

Firebase, Android Things.

Oscar Salguero will be explaining all the fantastic details about how he created his robot named Sentinel built on Android Things 🤖

We will have a set of codelabs for attendees, so bring a laptop if you want to roll up your sleeves and give it a go 🛠️

Of course, there will be food and prizes too! 🍕 ☕ 🎁

The poster for GDG Bronx DevFest 2017 features a large, colorful, abstract graphic on the left side, resembling a stylized 'G' or a cluster of connected nodes. The text on the poster includes the date and time, the event name, a description of GDG DevFests, a URL, a hashtag, and logos for partner organizations.

Saturday, October 21, 2017
10:00AM - 4:00PM

Google Developer Group Bronx DevFest 2017

GDG DevFests are large, community-run developer events happening around the globe focused on community building and learning about Google's technologies.

Data For Democracy Hackathon 📊 📈

Use your data and technology skills for good at the second Data for Democracy hackathon! Come along and join an active project using data for positive social impact or start a new one. This is open to everyone, even if you haven't been active in the **Data for Democracy** community.

REGISTER

Application! ✈️ ☀️ 😎

Last year Opportunity Hub sponsored 50 minority college students to go to SXSW.

This year their goal is to sponsor 500 of the top minority engineering, computer science, innovative and entrepreneurially-minded talent from HBCU's (Historically Black Colleges and Universities) and PWI's (Predominantly White Institutions) across America.

Accepted students receive a SXSW Interactive badge and all expenses paid trip to Austin, TX. Travel and housing are provided.

The cost to sponsor a student is \$3,000.00 US.

We encourage you to apply for an opportunity to be considered as a part of our 2018 cohort.

For consideration for acceptance in the 2018 cohort, students must be an African American or Latinx American college student, preferably, but not exclusive, enrolled in a Historically Black College and University (HBCU) or Minority Serving Institutions (MSI). We also encourage minorities at Predominantly White Institutions (PWI's) to apply as well.

Students must complete the application below in its entirety.

Students will also be required to submit a resume and references from the engineering, entrepreneurial or innovator lead at their college or university; and influencers in their community. Per our growing list of corporate partners, selection will be determined by declared degree program, coding skills, sales skills, business development skills, marketing skills, project management and agile skills and ultimately your ability to communicate how you will add value to the innovation economy after SXSW and beyond.

Please take your time in preparing the best application and

hackNY Fall 2017 Hackathon 🖥️ 🎨 🔧

Every spring and fall, hundreds of students from scores of universities around the country flock to hackNY's Student Hackathons, where they participate in collaborative and creative coding challenges in a 24-hour coding sprint. The events open with API demos from New York City startups. and then students work in teams to build projects. Students work around the clock, and the event culminates in a presentation before a panel of judges the next day.

APPLY

Citi Bank ICG Technology, Summer Analyst

Citi's Institutional Clients Group (ICG) is looking for Summer Analysts to join the Technology team in North America. Our ICG Technologists support and enable the success of our trading businesses and by utilizing a broad range of technologies; our team is at the forefront of innovation.

APPLY

Citi Bank NAM Enterprise Operations and Technology Leadership Development Program, Summer Analyst

The 10-week program starts in June and begins with a full day of induction training. Enterprise Operations and Technology (EO&T) plays a central role in driving value for Citi and its clients. EO&T provides a foundation that enables Citi to achieve its day-to-day operational and long-term growth goals, enabling execution of Citi's Strategy.

APPLY

Etsy Software Engineering Internship - Summer 2018

Daniel Adeyanju joined the NSBE chapter at Lehman College back in the Fall semester of 2014, and even after graduating from Lehman in 2016 with a second Bachelors degree (this time in Computer Science), has remained an active and vital member of the chapter.

Currently, Daniel is out in sunny California working as an iOS Developer for Macy's, where his day to day involves working on features specific to the mobile app. Daniel also interned for Macy's as a Software Engineer in the summer of 2016 before becoming a full-time employee.

"I joined NSBE because I knew that it would provide me with the resources and support system to succeed and because of its mission to increase the number of culturally responsible Black engineers. I truly believe in lifting while you climb and NSBE was and is an opportunity to do that," said Daniel when asked what made him join NSBE.

Those who have spoken to Daniel can agree that

We're looking for full-stack engineers - you'll be dealing with the MySQL, Memcache, PHP, and front-end stuff (HTML/CSS/JS). The teams working on each feature are pretty small (a few engineers, a designer, and a product manager), so there's a lot of meaningful collaboration.

APPLY

#TwitterAPM

The mission of Twitter's rotational Associate Product Manager program is to develop the next generation of product leaders. Through training, mentorship, and rotating assignments within various product teams at Twitter, APMs gain a unique view into how we design products and bring them to market. **Class of 2018 Preferred!** To be considered, APM candidates must select "Product" as their first career interest AND also select the "Associate Product Management (APM)" program under "Are there any programs you are interested in?" on Twitter's university application (link below).

APPLY

MORE INFO

Pssstt...more opportunities will be available in our Slack chat! Sign up here: nsbeshpe-lehman.slack.com

some of his greatest traits as a person are his initiative and his ability to think of the bigger picture. "When Dana, our chapter founder, sent out flyers with her direct phone number I reached out. The rest was history. Since then I attended two national conventions and two regional conventions. The money and time I invested in those events were nothing compared to the feeling of seeing 10s of thousands of black engineers. I participated in NSBEs national hackathon as well and made strong connections with many individuals that last today. These experiences challenged me to look beyond my classes and see what I really had to do to get a job as a software engineer. NSBE leveled the playing field for me."

"Ultimately NSBE gave me my first foot in the door at Macy's as an intern which led to my first software engineering job several months later in San Francisco! I have a lot of love for NSBE - now NS - and will continue to support Black and Brown engineers from my second alma mater, Lehman College." We at NS have a lot of love for you too, Daniel!

Whether sharing advice or constantly posting opportunities in our Slack chat, Daniel's dedication and support to NSBE-SHPE's mission during his college years and after are just a few of many reasons he is our Spotlight Member of the week! We at NSBE-SHPE would like to THANK YOU for all that you do for the chapter! 🙌🙌🙌🙏😊
